

# MOVFE 2500 - HL

## Modern Heavy-Duty, Non-Proprietary Closed Loop Door Operator

Highly adaptable, quiet, and reliable, the MOVFE 2500 - HL is the highest performing linear door operator today.

Powerful System: 230VAC and 115VAC power supply versions available; a 1/2 HP AC motor is used to accommodate most door loads, friction and wind pressures.

- Virtually Maintenance free
- Non-Contact Sensors
- LED Convenience Indicators
- Universal Inputs and Outputs
- Toggle Switches for Manual Testing
- Handheld Parameter Unit with LCD display
- Plug-and-Play Infrared Detector Edges
- Heavy/Narrower Door I/O Board
- Utilizes Reliable and High Resolution Encoder
- Serial Communication to GALaxy Controller
- Auto Fallback to Slow Mode if Sensors or Encoder Fail

The ECI line of door products is now manufactured and supported by GAL Canada
