BAR BUTTON

Illuminated Bar Button with Amerigo MdBT font

Engraved/Etched Bar Button with custom font

Blank Bar Button

We've raised the Bar.
Finally, a Bar Button with style.

The MAD Bar Button is a vandal resistant, extra long button made from either brushed brass, PVD brass, or stainless steel and housed in a cast body. The Bar Button matches our Julius series with integrated ADA tactile (custom or blank pushbutton), making it the aesthetic choice for your fixture.

- ✔ Studless Mounting
- ✔ Vandal-resistant
- ✔ Stainless Steel or PVD Brass, non-tarnishing finish
- ✔ Available Styles: Illuminated, Engraved, Etched, or Blank
- ✔ LED Illumination available in Red, Green, Blue, White & Amber
- ✔ Custom button marking (Amerigo Md BT font above)

Stainless Steel COP shown with 7" Matisse TFT PI, BS Moon and Bar Button pushbuttons, and Julius surround tactile.
