

YOU KNOW IT'S SAFE TO TRAVEL

WHEN YOU SEE CLEANCAB™ ON AN ELEVATOR

Introducing CleanCab™ by GAL - Proven. Safe. Effective.

CleanCab™ is a new cab purification device featuring **ActivePure® Technology**. Designed to **proactively seek and eliminate SARS-CoV-2**, the virus that causes COVID-19, and over 99% of other airborne and surface pathogens, this exclusive Certified Space Technology provides elevator passengers with the confidence to travel safely again.

ActivePure®
TECHNOLOGY

CleanCab™, the new air and surface purifier designed specifically for elevators and offered exclusively by GAL, utilizes the most powerful air and surface purification technology ever created. Harnessing the power of **ActivePure® Technology**, found in FDA Class II Cleared Medical Devices trusted in hospitals, homes, and sports facilities, the **CleanCab™** brand instantly tells passengers it's safe to travel.

**Clean air.
Clean surfaces.
Proven technology.**

 <p>NASA Certified Technology</p> <p>CleanCab™ uses ActivePure® Technology, derived from NASA Technology used on the International Space Station. It's the only Space Technology Hall of Fame and Certified Space Technology worldwide in its class.</p>	 <p>Destroys 99% of Pathogens</p> <p>CleanCab™ is unlike traditional filtration systems in that it's proven to proactively seek out and eliminate SARS-CoV-2, the virus that causes COVID-19, and over 99% of airborne and surface contaminants.</p>	 <p>The CleanCab™ Science</p> <p>CleanCab™ uses patented technology to pull oxygen and water molecules through the air into the system, creating powerful oxidizers engineered to seek and destroy airborne and surface pathogens in the cab.</p>
 <p>Easy to Install</p> <p>CleanCab™ is easy-to-install, vandal-resistant, safe, cost-effective, easy-to-maintain, and works quickly and quietly in real-time, providing a safe and reliable cab for your tenants and guests.</p>	 <p>24/7 Protection</p> <p>CleanCab™ continuously cleans and protects air and surfaces 24 hours a day, proactively destroying pathogens, with a proven reduction rate of over 99.9% of airborne SARS-COV-2 within 3 minutes.</p>	 <p>Better for you</p> <p>CleanCab™ is the mark of safe elevator travel. Unmatched by any other device for quick elimination of COVID-19 and other pathogens, it's the safest and most effective cab purification device on the market.</p>

CleanCab™ lets you ride with confidence.

- Engineered specifically for elevators
- Features the same air purification technology as NASA
- Employs technology found in FDA Class II Cleared Medical Device
- FDA approved and CSA certified for elevators
- Actively seeks out pathogens rather than just filtering for them
- Proven to seek and destroy over 99% of contaminants
- Quick elimination of COVID-19 and a wide range of pathogens
- Neutralizes allergy and asthma triggering contaminants
- Continuous disinfection 24/7/365
- No chemicals, ozone, or byproducts
- Safe and effective in the air and on surfaces
- Superior, proven technology backed by 95 years of history
- Made in the USA
