REGIONAL SERVICE CENTERS

Chicago – 877.300.5830
New York – 917.336.4597
Miami – 877.241.9354
Los Angeles – 877.300.5816
Dallas – 469.706.9316
Toronto – 888.425.2262

BENEFITS

- Non-proprietary design
- Ideal for high-, mid- and low-rise buildings
- Suitable for all geared, PMAC gearless, DC gearless, and MRL traction applications
- Front and rear door configuration capability
- Absolute position/distance feedback incorporating no-wear, Tapeless or APS selectors
- Capable of serving up to 60 floors and 8-car groups
- Password protected to prevent unauthorized parameter adjustment
- Serial communications linked to smart interfaces, greatly reduces traveler and hoistway cable wiring
- Universal input/output connections with built-in protection against short-circuits and over-voltage situations
- Simple installation, set-up and maintenance
- Comprehensive support and technical training available
