

Conversion Kit: **Dover/TK HD** Harmonic Operators to **MOVFR-II**

PRE-ENGINEERED GAL CONVERSION BOLT ON KIT for the Dover/TK HD Harmonic Series Operators

In the past, GAL has provided custom engineered harmonic operators to drive elevator doors previously using Dover HD series operators. These custom layouts took time to draft and delayed orders for weeks. Now we've designed an off the shelf solution with a quick turnaround.

The same MOVFR series operator that we've sold for years, now with additional mounting kit and universal drive arm(s). You'll be able to keep your existing clutch and drive most doors, no additional surveys required.

BENEFITS

- Includes everything needed to drive the door
- CSA/UL Certified where applicable
- Used for replacing an HD series operators
- Only specify the operator voltage and hand - no surveys!
- Each kit includes a programming tool
- Retain all other Door Equipment including clutch and interlocks
- Only 1 part number to order!

STANDARD FEATURES

- Available for single arm and dual arm operators
- Operators available for 115 VAC and 230 VAC installations
- Dimensions range: Side Slide
 - Door Opening: 36"-48"
 - Up to 33" tall Header

Conversion Kit: DOVER/TK HD Harmonic Operators to MOVFR-II
