

Conversion Kit: OTIS AT400 / BLACKBELT to MONXT - OMNI

PRE-ENGINEERED GAL CONVERSION KIT for the OTIS AT400 / BLACKBELT Linear Operator

Otis has a massive footprint of linear operators installed in the past. Now customers are facing shortage of replacement parts or operators obsolescence.

With the GAL conversion kit, the modernization for all these operators is simplified by having one operator capable to suit any door opening, voltage or hand.

BENEFITS

- CSA B44/ASME A17.1 approved
- 1200 lbs. total panel weight capacity
- No need of surveys or voltage
- Capable to attach to most equipment
- Conversion can be performed quickly and easily
- AC Voltage 115/230 VAC input
- 1/2 HP PM motor
- Hand swap can be perform within minutes
- Built on a universal standard, non-proprietary platform (MONXT)
- Contains an easily learned tool and software
- Kit has all you need for the installation from start to finish
- Drive belt capable of traveling up to 54"

Conversion Kit: OTIS AT400 / BLACKBELT to MONXT - OMNI
